Regional Councils Across the U.S.

NMSDC's 15,000+ certified MBEs represent an extraordinary network of verified, contract-ready minority businesses. Yet many still lack access to modern digital tools — AI-driven analytics, loyalty programs, and integrated payment systems — that larger competitors take for granted.

1325.AI is the economic operating system purpose-built to close this gap.

Who Is 1325.AI?

The Economic Operating System for Community Wealth

- AI-powered platform connecting consumers to minority-owned businesses
- QR-based loyalty system that drives repeat spending and tracks economic circulation
- Business intelligence suite with real-time analytics, CRM, and AI concierge (Kayla)
- Patent-pending technology (USPTO 63/969,202) — 27 claims protecting our innovation
- 294+ database tables, 110+ Edge Functions, 28 AI modules — enterprise-grade at startup speed
- Built for community economic empowerment from Day 1

Value Proposition for NMSDC Members

How 1325.AI Strengthens Your Member Businesses

Visibility & Discovery

Get listed in an AI-curated directory. Consumers find MBEs by location, category, and reviews — driving foot traffic and online engagement.

Customer Retention

QR-based loyalty programs keep customers coming back. Points, rewards, and instant discounts create a closed-loop spending ecosystem.

AI Business Intelligence

Real-time dashboards with revenue analytics, customer insights, and AI-generated recommendations to optimize operations.

Digital Payments & POS

Integrated payment processing, invoicing, and transaction tracking — all from a single platform built for small businesses.

B2B Marketplace

Connect with other NMSDC members for supply chain partnerships. AI-powered matching finds the right suppliers and buyers.

Grant & Capital Access

Built-in tools for tracking grant opportunities, connecting with investors, and managing financial growth milestones.
