1325.AI

Partnership Proposal

Empowering NMSDC Certified MBEs with AI-Powered Economic Infrastructure

Prepared for the National Minority Supplier Development Council

April 2026 • Confidential

ORIGIN STORY

Why 1325?

In 1325 CE, Mansa Musa I — Emperor of the Mali Empire — embarked on a pilgrimage to Mecca. He distributed so much gold that he *single-handedly crashed the economies* of every city he passed through. Gold prices took over a decade to recover.

His wealth: over **$400 billion** in today's dollars — the wealthiest person in recorded history. But his legacy isn't about personal wealth. It's about what he *built*: universities, mosques, trade routes, and economic systems that sustained the Mali Empire for generations.

He proved that when wealth is **circulated intentionally** — invested in infrastructure, education, and community — it doesn't just accumulate. It ***multiplies.***

The Name Is the Mission

1325.AI isn't just a name — it's a thesis. **1325** represents the moment one man demonstrated what's possible when economic power is wielded with intention. **.AI** represents the modern tools we use to rebuild that same infrastructure — digitally, systemically, and at scale.

6 hours vs **28+ days**

How long the Black dollar circulates — 1325.AI exists to close this gap.

1325 — *The year wealth moved empires. The platform that moves it again.*

THE OPPORTUNITY

The Opportunity

15,000+	$400B+	1,500+	23
NMSDC Certified MBEs Nationwide	Annual Minority Business Revenue	Corporate Members Seeking MBEs	Regional Councils Across the U.S.

NMSDC's certified MBEs represent the gold standard in verified, contract-ready minority businesses. Yet many still lack the modern digital infrastructure — AI analytics, loyalty systems, integrated payments — that larger competitors take for granted.

1325.AI is the economic operating system purpose-built to close this gap — giving every MBE the tools to compete, grow, and build generational wealth.

PLATFORM OVERVIEW

Who Is 1325.AI?

The Economic Operating System for Community Wealth

AI-Powered Platform

Connecting consumers to minority-owned businesses with intelligent discovery and personalized recommendations

QR Loyalty Engine

Drives repeat spending and tracks economic circulation with patent-pending CMAL protocol

Agentic AI Workforce

Kayla — our AI concierge — handles marketing, scheduling, CRM, and analytics autonomously

Patent-Protected IP

USPTO 63/969,202 with 27 claims covering geospatial fraud detection, B2B matching, and voice AI

Enterprise-Grade Scale

294+ database tables, 110+ Edge Functions, 28 AI modules — built by a solo founder in 8 months

Mission-First Design

Purpose-built for community economic empowerment — not retrofitted from a generic SaaS tool

MEMBER VALUE

Value Proposition for NMSDC Members

How 1325.AI Strengthens Your Member Businesses

Visibility & Discovery

AI-curated directory with location, category, and review search — driving foot traffic and online engagement to MBEs.

Customer Retention

QR-based loyalty programs with points, rewards, and instant discounts create a closed-loop spending ecosystem.

AI Business Intelligence

Real-time dashboards with revenue analytics, customer insights, and AI-generated growth recommendations.

Digital Payments & POS

Integrated payment processing, invoicing, and transaction tracking from a single platform.

B2B Supply Chain

AI-powered matching connects NMSDC members for supply chain partnerships — keeping dollars in the community.

Grant & Capital Access

Tools for tracking grants, connecting with investors, and managing financial growth milestones.

ONBOARDING

How It Works for NMSDC Members

01

Sign Up via NMSDC Portal

MBEs access 1325.AI through a co-branded NMSDC landing page. Certification status is auto-verified.

02

Build Your Digital Storefront

AI-assisted profile creation with photos, hours, services, and offers. Go live in under 10 minutes.

03

Activate Loyalty & Payments

Generate QR codes, set up points, connect payments, and start tracking economic circulation.

04

Grow with AI Insights

Kayla delivers recommendations, automates marketing, and surfaces B2B opportunities within NMSDC.

AI CONCIERGE

Meet Kayla — Your Agentic AI Concierge

28
AI Modules

110+
Edge Functions

24/7
Always Available

$3-5K
Monthly Labor Replaced per MBE

Automated Marketing

AI-generated campaigns, social posts, and email sequences tailored to each business

Smart Scheduling

Appointment booking, reminders, and customer follow-ups — fully automated

Financial Insights

Revenue forecasting, cash flow analysis, and growth opportunity identification

Customer Intelligence

Behavioral analytics, churn prediction, and personalized engagement strategies

Supply Chain Matching

AI-powered B2B connections with complementary NMSDC businesses

COMPETITIVE ANALYSIS

Competitive Landscape Analysis

Independent analysis of 30+ platforms confirms: no competitor replicates 1325.AI's full stack.

Platform	AI Dir.	Agentic	B2B	Loyalty	CMAL	Fraud	Patent	Score
1325.AI	✓	✓	✓	✓	✓	✓	✓	8/8
Amazon	■	■	■	✓	✗	■	✓	3.5/8
Alibaba	■	✗	✓	■	✗	■	✓	3/8
Salesforce	✗	✓	■	✗	✗	✗	✓	2.5/8
Yelp	✓	✗	✗	■	✗	✗	✗	1.5/8
WeBuyBlack	✓	✗	✗	■	✗	✗	✗	1.5/8
Offic. Black Wall St.	✓	✗	✗	✗	✗	✗	✗	1/8

No platform scores above 3.5/8. **1325.AI is the only 8/8 capability platform in the market.**

COMPETITIVE MOATS

Defensibility & Strategic Moats

27 Claims

Patent Protection

USPTO Provisional 63/969,202 — 27 claims covering geospatial fraud detection, B2B matching algorithms, and voice AI integration.

Proprietary

CMAL Data Network Effect

Community-Mapped Asset Ledger creates a proprietary data layer that grows more valuable with every transaction.

Irreplicable

Community Trust

Deep relationships and cultural alignment that cannot be replicated by generic enterprise platforms.

294+ Tables

Technical Depth

294+ database tables, 110+ Edge Functions, 28 AI modules — an 8-month engineering sprint by a solo founder.

MARKET SIZE

Addressable Market Opportunity

$1.6T

African Diaspora Consumer TAM

Total addressable consumer spending across the African Diaspora globally

$7.9T

B2B Marketplace Opportunity

Global B2B marketplace opportunity for supply chain matching

$126B

AI Workforce Market

Projected AI workforce automation market by 2030

$24B

Loyalty & Rewards Market

Global loyalty management platform market size

PARTNERSHIP

Partnership Model

What NMSDC Gets

→ Enhanced member value with cutting-edge AI tools

→ Measurable economic impact data across the network

→ Co-branded technology showcasing innovation leadership

→ Revenue share on premium member subscriptions

→ Strengthened corporate member proposition

→ Digital transformation narrative for stakeholders

What 1325.AI Gets

→ Access to 15,000+ pre-verified MBE businesses

→ NMSDC certification trust and brand credibility

→ National distribution through 23 regional councils

→ Corporate member network for B2B partnerships

→ Joint marketing and conference visibility

→ Data insights for platform optimization

PROJECTED IMPACT

Projected Year-One Impact

Measurable outcomes from the NMSDC × 1325.AI partnership

3,000+
MBEs Onboarded
20% of certified members

$12M+
Tracked Spending
Measurable circulation

150K+
Consumer Connections
New customers to MBEs

85%
Retention Rate
AI-driven engagement

500+
B2B Matches
Supply chain connections

23
Regional Launches
Full national coverage

IMPLEMENTATION

Rollout Timeline

Phase 1
Mo. 1–3

Pilot

- 3 regional councils
- 500 MBEs onboarded
- Co-branded landing page
- Training & support

Phase 2
Mo. 4–6

Expand

- 10 regional councils
- 1,500 MBEs onboarded
- Conference integration
- B2B matching live

Phase 3
Mo. 7–9

Scale

- All 23 councils active
- 2,500+ MBEs live
- Corporate member API
- Impact dashboard

Phase 4
Mo. 10–12

Integrate

- 3,000+ MBEs
- Advanced AI features
- Certification API
- Annual impact report

BARRIER TO ENTRY

The Replication Barrier

To replicate 1325.AI, a competitor would need to simultaneously:

1. Build an AI-powered directory for a specific cultural community
2. Develop autonomous AI agents for small business operations
3. Create a B2B matching algorithm with patent-clear IP
4. Design an economic circulation tracking protocol (CMAL)
5. Implement geospatial fraud detection systems
6. Earn the deep community trust required for adoption

Estimated cost to rebuild: **$15–20M + 3–4 years**

Assuming the patent landscape permits it.

Let's Build This Together

When NMSDC's trusted certification meets 1325.AI's economic operating system, every certified MBE gains the tools to compete, grow, and build generational wealth.

1325.AI

Next Steps

1. Schedule a leadership call to align on partnership structure
2. Identify 3 pilot regional councils for Phase 1 launch
3. Co-develop the NMSDC × 1325.AI member onboarding experience
